

INNOWACJA JAKO PODSTAWA MIĘDZYNARODOWEGO SUKCESU FIRMY

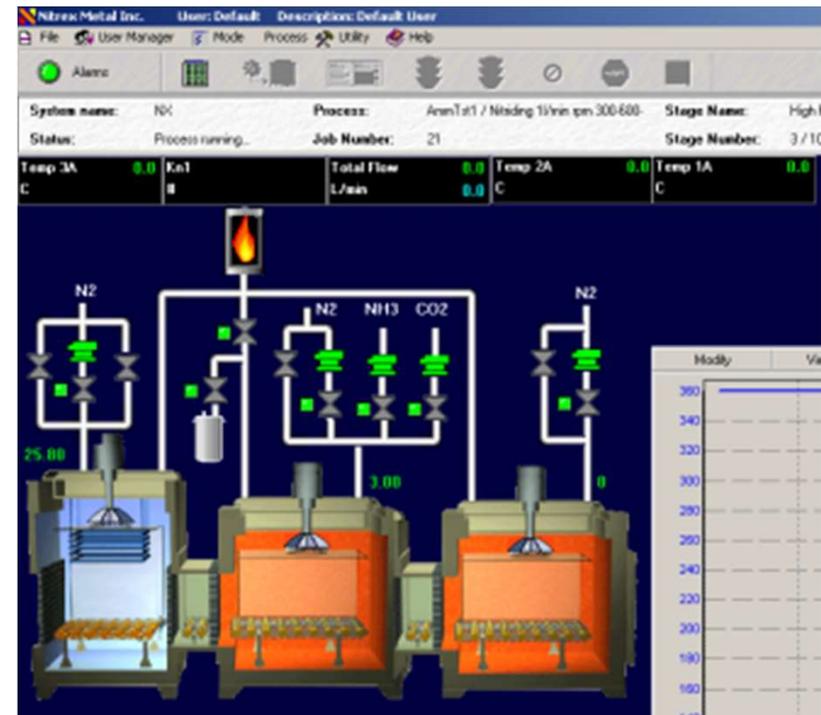

MICHAŁ KORWIN-SZYMANOWSKI
PREZES GRUPY NITREX METAL INC.
Absolwent Politechniki Częstochowskiej

Międzynarodowa firma oferująca komputerowo sterowane systemy do obróbki cieplnej wraz z technologią kontrolowanego azotowania gazowego.

Rok założenia: 1984

Motto zasadnicze:

Stałe ulepszanie naszej technologii podwyższa konkurencyjność produktu naszego klienta.

Od prostych instalacji...

Model	NX-4238
Dimensions	Ø 4200mm x 3800mm H
Load (max)	20,500 kg (45,000 lbs.)
Application	Gears

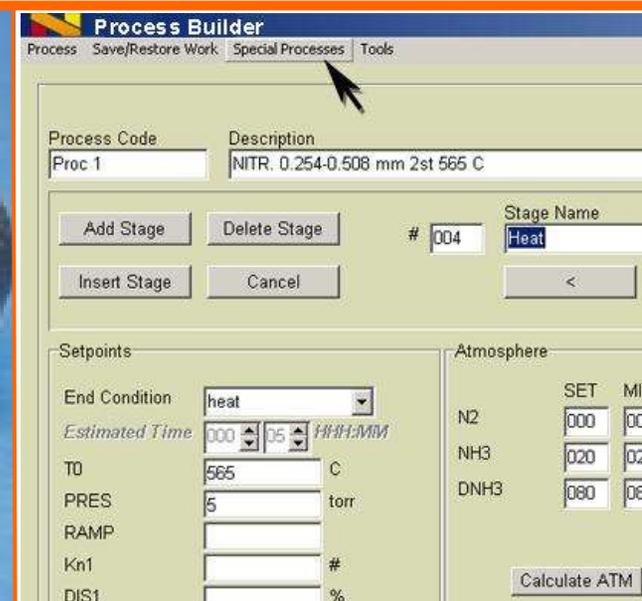

do największych pieców do azotowania na świecie.

Badania i analizy

Technologie

Specjalne procesy

Prace badawczo-rozwojowe nad nowymi zastosowaniami, specjalnymi procesami i technologiami stanowią ważną pozycję w spektrum działalności Nitrex-u.

Founding Year

Nitrex Metal Inc. based in Canada launches Nitreg®, a new standard in computerized process control based on potential controlled nitriding.

1981

1984

1987

1990

1991

1993

1st Heat Treat Shop

First company-owned metal treating center opens in Montreal. Nitrex expands into USA and Poland over two decades. Adds new technology ONC® that enhances the corrosion / wear resistance of Nitreg® treated steel.

Turnkey Systems

Starts sale of turnkey nitriding systems to captive market, first installation for nitriding extrusion dies in operation at Alcan Germany. Over the next 35 years, 500+ systems installed worldwide.

An Idea is Born

Michel Korwin with Dr. George Tymowski and some bridge buddies set out to develop an advanced nitriding process.

Licensing

Grows by licensing Nitreg® to heat treater, Colmegna Srl in Milan. Number of licensees expands worldwide throughout the years, available in 20 countries.

2nd Heat Treat Shop

Partners with H & S Heat Treating to launch Nitrex Metal Technologies in Burlington, Canada, offering nitriding services to Ontario customers.

Industry Standard

Authors international specification 'ASM 2759/10 Automated Gaseous Nitriding Controlled By Nitriding Potential'. Today it's a world standard.
Expands technologies with launch of Nitreg®-C nitrocarburizing, an environment friendly alternative to salt bath nitrocarburizing.

1998

2003

2004

2006

Mammoth System

Builds and delivers a mammoth nitriding system (4.2 meter diameter by 3.8 meter high) to Northrop Grumman, a US military defense contractor, for nitriding submarine gears.

Horizontal Line

Expands product portfolio with horizontal furnaces for medium-high volume parts. First installation for nitriding turbocharger inserts in operation at Cimos Group Serbia.

Recognitions

Nitrex honored with various awards: The Profit 500: Canada's Fastest Growing Companies (1998, 1999), 50 Best Managed Private Companies in Canada (1999, 2000, 2001).

Award

Nitrex system at General Electric Co. in Lynn, MA, USA is acknowledged with Massachusetts Governor's Award for Outstanding Achievement in Toxics Use Reduction. Ammonia consumption in the plant reduced by 98%.

Diversification

Diversifies business, enters the process control and automation market with purchase of Process-Electronic GmbH (DE, FR). Expands Nitreg® brand of technologies with Nitreg®-S process for stainless steels. Expands portfolio with continuous system for high volume parts processing.

New Manufacturing Plant

Opens new manufacturing facility in Poland to help fulfill growing demand.

2007

2008

Recognition

President Michel Korwin inducted 1st Honoree of the Heat Treatment Forum Hall of Excellence Poland (www.heat-treatment-forum.pl).

UPC Grows

Continues acquisition initiatives for process controls business, adds Atmosphere Engineering to United Process Controls brands

Acquisitions

Grows process control business further, acquires US companies FCC, MMI, and Waukee. Co-authors new world standard 'ASM 2759/12 Gaseous Nitrocarburizing'.

Michel Korwin recognized as '25 Most Influential People in the North American Heat-Treating Industry' (www.themonty.com, 2007, 2009)

UPC Is Born

Unifies three US companies and unveils new company, United Process Controls, and plans to become world's top supplier of process controls and automation solutions.

New Investment

Canadian equity firm Novacap acquires a major stake in Nitrex. Partnership will accelerate future growth, operational enhancements, and more investments in R&D and key regions. President Michel Korwin awarded Poland's Gold Cross of Merit (Highest civilian recognition in time of peace).
